

To Operate Vincent Van G.O.A.T.

1. Turn computer on using the keyboard “on/off” button located on the top right side of the keyboards.
2. When the screed comes up with the goat menu double click or touch twice on the “goat.swf” file. Wait a moment while the program loads.
3. Go to full screen by pressing the “apple” and “f” keys simultaneously.
4. Have the child double click or touch twice on the photo image of the artist they would like to view. Wait a moment for the film to start. At the end of each film, the screen will go back to the main map. The child can then select another artist.

***To move the cursor off of the video. Touch anywhere in the black frame area around the video.

***When a video is playing, touching anywhere on the video will pause the play. Double click the video to resume play.

5. To shut down, press the “on/off” button on the keyboard (same as turning on) and hit “return” to verify that you want to shut the computer down.

Do not unplug the computer until it is completely shut down
