Andy Warhol Hand Printmaking
Pre-K → 2nd Grade

Materials & Resources:
Pencils
Black acrylic paint
Paintbrushes
Scissors
Glue sticks or white glue
9x12 construction paper in various colors
6 per artist, 4x6 pieces of colored construction paper different from the background color. The more color choices, the merrier!
Tip: You can make the 4x6 pieces by folding a full sheet of paper into quarters and cutting.

Baby wipes for cleaning hands
❖ (Could also use halved apples, bell peppers, pears, onions as an alternative stamp shape)

Artists will engage in:
_X_ independent activities  ___pairing
___cooperative learning  _X_hands-on
___peer tutoring  ___centers
_X_ whole group instruction  ___simulations
___interdisciplinary  ___technology
learning
___self-assessment  _X_visuals
___activation of prior  ___a project
knowledge
___questioning strategies
___varied learning styles

Objectives/Learning Goals
TSWBAT (The Student Will Be Able To...)
● TSWBAT interpret and evaluate the artwork of Andy Warhol.
● TSWBAT create an original work of art in the style of the artist
and of the Pop Art movement.

Images
Marilyn Diptych,
Andy Warhol

Anticipatory Set/Instructional Input
● Read Andy Warhol book.
● Review Marilyn Diptych image and talk about how Warhol was a very famous artist who would create prints of the same person/image, but would use different colors.

Guided & Independent Practice:
1. Choose a single sheet of construction paper and write name on the back.
2. Artists choose 6 total 4x6 pieces of paper that are different in color from the large sheet. Set 2 of the 6 aside.
3. On the 4 remaining 4x6 pieces of paper, artists trace their hand with a pencil. Cut out the 4 hands with scissors. You could simplify this step by tracing 1 hand, stacking the other papers under it, and cutting everything at once.
4. With a glue stick, glue the 2 set-aside 4x6 pieces of paper in a diagonal fashion on the large sheet of construction paper.
5. With a glue stick, glue the 4 hands (2 on top of the 4x6 papers, and 2 directly onto the large paper.
6. Brush the hand that was traced, with black paint and press on top of the paper hands. Make sure to apply pressure on top of palm & fingers so that a good print will appear. (The goal is for the handprint to go the same direction as the glued paper hand). Do this a total of 4 times, 1 painted hand pressed onto each glued paper hand.
7. Clean hands with baby wipes. Let dry and retrieve artwork. Thanks for joining!
Example:
