

Tie Dye Aftercare Instructions

- 1. Keep in ziplock bag for at least 24 hours.**
- 2. Rinse the t-shirt under cold water until the water runs clear. This will help to remove any excess dye and prevent the colors from bleeding or fading.**
- 3. Wash the t-shirt separately in cold water with mild detergent. This will help to remove any remaining dye and keep the colors bright and vibrant.**
- 4. Avoid using bleach or fabric softeners, as these can damage the fabric and cause the colors to fade.**
- 5. Hang the t-shirt to dry, or tumble dry on a low heat setting. Avoid drying the t-shirt in direct sunlight, as this can cause the colors to fade.**
- 6. Store the t-shirt in a cool, dry place away from direct sunlight. This will help to prevent the colors from fading and keep the fabric in good condition.**

Following these aftercare instructions will help to keep your tie-dyed t-shirt looking bright, vibrant, and beautiful for years to come!
